JUSTIN MORGAN

CAREER OBJECTIVE

I am currently completing a bachelor's degree in Computer Science at the University of Central Arkansas with a current GPA of 3.7. I possess a robust understanding of databases, software development, and various programming languages. I'm eager to leverage my expertise to be a valuable asset in a dynamic organization's growth.

PROJECTS

ALGEBRA CALCULATOR
Using C++
- C++ program designed to solve linear equations. It utilizes a binary tree structure and token system to parse and evaluate algebraic expressions inputted by the user

REAL-TIME WEATHER FORECASTING APP
Using JavaScript, HTML, CSS, and Weather API
- Incorporated JavaScript to route a real-time weather API to the application to show current weather reports depending on the city entered by user.

EXPERIENCE

Database Engineer Intern| January 2023 - Current
Acxiom LLC – Conway, AR.
- Supported team members by researching best practices, providing insights, and assisting in the implementation of modern database technologies.
- Instrumental in optimizing SQL queries and views resulting in enhanced database performance and efficiency.

EXPERTISE

- **C++**
  - Highly skilled and knowledgeable in C++, possessing an in-depth understanding of the language's intricacies, enabling me to craft efficient, robust, and maintainable software.
- **SQL**
  - Possess a profound grasp of relational database theory and SQL programming principles, exemplified by a successful history of collaboration with interdisciplinary teams and a track record of delivering exceptional data-driven solutions.
